# Assistance at Spanish airports for persons with disabilities or reduced mobility

---

In compliance with Regulation (EC) no. 1107/2006 of the European Parliament, starting July 26th 2008 all European airports will offer assistance services for passengers with reduced mobility.

This European Community measure represents a significant social advance for disabled persons and for this reason all the necessary financial, material and human resources have been provided to make it possible for every Spanish airport to render a quality service guaranteeing that all people can enjoy air transport anywhere in Europe, regardless of their disability.
