1. INTRODUCTION

Royal Decree-Law 13/2010, of December 3, has introduced an important modernization process, dividing the airport and air navigation management functions that in Spain had been performed by the Entidad Pública Empresarial Aena, with the objective of improving the efficiency and effectiveness of the Spanish airport system.

Aena Aeropuertos is created within this modernization process and it shall be responsible for the management of the airports which until now had been managed by Entidad Pública Empresarial Aena.

The Council of Ministers on June 3, 2011 approved an agreement which authorizes the asset transfer from Aena to Aena Aeropuertos and a rise in the capital stock of the new company. These measures are necessary for Aena Aeropuertos to start functioning effectively, from June 8, 2011.

Aena Aeropuertos shall carry out all the duties and obligations developed by Entidad Pública Empresarial Aena until June 7, 2011 as regards management and operation of airport services, and any others that national or international law gives to the airport operator, in relation to the network integrated by airports and heliports managed by Aena.

From July 5, 2014, Aena Aeropuertos S.A changes its name into Aena SME, S.A. The airports and heliports that it manages are the following:

Adolfo Suarez Madrid-Barajas and Josep Tarradellas Barcelona-El Prat.

Alicante Elche, Gran Canaria, Tenerife Sur, Málaga-Costa del Sol and Palma de Mallorca.

Bilbao, Fuerteventura, Girona, Ibiza, César Manrique-Lanzarote, Menorca, Santiago, Sevilla, Tenerife Norte and Valencia.

Almería, Asturias, Coruña, Granada-Jaén, Jerez, La Palma, Reus, Seve Ballesteros, Santander, Vigo and Zaragoza.

Albacete, Algeciras, Badajoz, Burgos, Ceuta, Córdoba, Madrid Cuatro Vientos, Hierro, Huesca, La Gomera, León, Logroño, Melilla, Sabadell, Salamanca, San Sebastián, Son Bonet, Pamplona, Vitoria and Valladolid.

1.1. PROCEDURE TO OPERATE

Flights landing, taking-off or flying over the Spanish territory shall be subject to the Spanish law as regards civil aviation and to the public security, police and penal regulations in force in Spain.

Information about requirements and authorizations needed to operate in Spain is available on the AIS website (<https://www.enaire.es/services/ais>).

In order to optimize the use of the capacities available in airports under the Spanish sovereignty, it is needed to coordinate arrival and departure hours of every commercial flight to avoid congestions and delays. Therefore, every flight operating in Adolfo Suarez Madrid Barajas and commercial flights operating in other Aena airports shall coordinate their service times through:

Asociación Española para la Coordinación y Facilitación de Franjas Horarias (AECFA)

Edificio de Servicios Generales
Avda. Central, 1 – Oficce 422 4th Floor.
Centro de Carga Aérea. Aeropuerto de Adolfo Suárez Madrid Barajas
28042 Madrid
Tf: +34-913 937 750
Fax: +34-913 937 751
E-mail: slot.coord.admin@aecfa.es
www.slotcoordination.es

In order to operate at Spanish airports, it will be necessary to complete the form: “Formulario Estadístico de Tránsito Aéreo” both at arrival and departure.

AIRPORT SERVICE TIMETABLE:

Service times of Spanish airports are duly published and updated in de AD card of each airport of AIP Spain.

1.2. REVENUE MANAGEMENT PROCEDURE FOR AIRPORT CHARGES DETERMINED BY THE MTOW

Definition of Maximum Take-Off Weight

Article 72.3 of Law 21/2003 defines the Maximum Take-Off Weight (MTOW) as the maximum certified take-off weight of the aircraft, expressed in metric tonnes, as appearing on the airworthiness certificate. In the event the weight is not known, the weight of the heaviest known aircraft of the same type will be used.

Information to be provided regarding the MTOW of aircraft

In order to correctly calculate the airport charges, aircraft operators must send the documentation proving the MTOW of the aircraft to the following address: tablas.corporativas.flotas@aena.es

Such notification should be made at the time of the change in the characteristics of the aircraft, or at the issuance of the certificate in the case of an aircraft operating for the first time.

To demonstrate the validity of the MTOW or its changes, a copy of the airworthiness certificate or the flight manual of the aircraft may be submitted, and failing that, a copy of the official noise certificate in accordance with the provisions of Annex 16 to the Convention on International Civil Aviation, or document of similar characteristics and validity issued by the State of registration of the aircraft.

If the relevant MTOW data has not been provided, the highest known weight for the ICAO category of the aircraft will be charged. For this purpose, the reference will be the EASA database.

Information to be provide regarding aircraft noise

Prior to the flight departure, air carriers shall submit a copy of the official noise certificate in accordance with the provisions of Annex 16 to the Convention on International Civil Aviation, or a document of similar characteristics and validity issued by the State of registration of the aircraft.

For the purposes of acoustic classification, those aircraft whose operators do not provide a noise certificate will be consider within the same category as an aircraft of the same manufacturer, model, type and number of engines for which a certificate is available until the corresponding certificate is accredited.

1.3. GOVERNING LAWS

Law 18/2014 of 15 October, provides the regulatory framework for basic airport services.

This Law observes the principle of legal reservation regarding the regulation of airport revenues, Law 21/2003, amended by Law 1/2011 of 4 March.

This guide shows the basic airport services charges, that revenues generated by them are considered as public patrimonial benefits, prices for commercial services and charges of services provided by entities other than Aena (Aena has the duty of their invoicing but incomes collected are not part of Aena's revenues).

List of Laws that have amended Law 21/2003:

Law 2/2012 de 29 de junio de Presupuestos Generales del Estado para el año 2012.

Resolution CNMC de la supervisión de las tarifas de las PPP de Aena para el ejercicio 2024 (STP/DTSP/018/23)

Legislation of charges for those services provided by entities other than Aena, although they are invoiced by Aena:

- Safety and security tax (Tasa de seguridad aérea): Law 9/2013
- Charge on slot allocation (Asignación franjas horarias): Real Decreto-ley 1/2014, de 24 de enero.

AERONAUTICAL CHARGES

2. AERONAUTICAL CHARGES

Rates are shown without indirect taxes unless otherwise indicated.

The amounts of all aeronautical charges listed below do not include the surcharge for the recovery of costs arising from border controls

This surcharge recognized by the CNMC in its Resolution on the Supervision of 2024 Charges (STP/DTSP/018/23), to be applied to all aeronautical charges, will be 0,04%.

2.1 LANDING AND AERODROME SERVICE

Definition:

Use of the runways by an aircraft and the rendering of the services needed for such use different from ground handling, to aircraft, passengers, and goods as well as aerodrome services provided by the airport operator.

Taxpayer: Airlines, legal entities or persons receiving the above mentioned services.

Rates:

It is determined according to the maximum takeoff weight (MTOW), and varies depending on the type, class of flight, and the noise level of the aircraft.

Maximum Take-Off Weight (MTOW) as the maximum certified take-off weight of the aircraft, expressed in metric tonnes, as appearing on the airworthiness certificate. In the event the weight is not known, the weight of the heaviest known aircraft of the same type will be used.

When the aerodrome service is provided in the form of Aerodrome Flight Information Service (AFIS), the amount of the rate of aerodrome service will be reduced by sixty percent.

2.1.1 Flights within European Area and International flights

| Airport | LANDING | | AERODROME SERVICE | |
|--|-----------|--------------------|-------------------|--------------------|
| | € per Ton | Minimum charge (€) | € per Ton | Minimum charge (€) |
| Adolfo Suarez Madrid-Barajas | 8,650125 | 156,79 | 3,224038 | 65,79 |

| La Palma | 3,776177 | 8,88 | 2,258817 | 5,62 |
| Ceuta, Hierro, La Gomera, Melilla and Son Bonet. | 2,492087 | 4,83 | 1,920491 | 3,92 |

Rates for private flights will be the ones under paragraph 2.1.1

2.1.3 Inter-Islands flights in Canary and Balearic Islands

| Airport | LANDING | | AERODROME SERVICE | |
|--|-----------|--------------------|-------------------|--------------------|
| | € per Ton | Minimum charge (€) | € per Ton | Minimum charge (€) |
| Gran Canaria, Tenerife Sur and Palma de Mallorca | 2,168686 | 29,48 | 3,144430 | 46,85 |
| Fuerteventura, Ibiza, César Manrique-Lanzarote, Menorca and Tenerife Norte | 1,819548 | 4,25 | 2,885711 | 7,11 |
| La Palma | 1,332768 | 3,14 | 2,258817 | 5,62 |
| Hierro, La Gomera and Son Bonet. | 0,879560 | 1,70 | 1,920491 | 3,92 |

Rates for private flights will be the ones under paragraph 2.1.1

2.1.4 Surcharges according to the noise level of the aircraft

At Alicante-Elche, Barcelona-El Prat, Bilbao, Gran Canaria, Ibiza, Adolfo Suarez Madrid-Barajas, Málaga-Costa del Sol, Palma de Mallorca, Sevilla, Tenerife North, Tenerife South and Valencia Airports, for civil subsonic jet airplanes, the amounts resulting from the application of the amounts referred to in points 2.1.1 to 2.1.3. of this section shall be increased by the following percentages according to the noise level of each aircraft and to the schedule of the landing or take off:

| Noise category | 07:00 - 22:59 (local time) | 23:00 - 06:59 (local time) |
|----------------|-------------------------------|-------------------------------|
| Category 1 | 70% | 140% |
| Category 2 | 20% | 40% |
| Category 3 | 0% | 0% |
| Category 4 | 0% | 0% |

The criterion applied to determine the noise category for each aircraft is as follows:

- Category 1: Aircrafts with accumulative margin up to 5 EPNdB.
- Category 2: Aircrafts with accumulative margin between 5 EPNdB and 10 EPNdB.
- Category 3: Aircrafts with accumulative margin between 10 EPNdB and 15 EPNdB.
- Category 4: Aircrafts with accumulative margin over 15 EPNdB.

Accumulative margin: The figure, in EPNdB (Effective Perceived Noise in Decibels), is obtained after summing up the differences between noise calculated and noise certificated at each of the three points of reference defined in the Convention on International Civil Aviation, volume 1, second part, chapter 3, annex 16.

2.1.5 Training and school flights.

Definition:

Training flights are those performed for pilot training or qualification in order to confirm or keep licenses.

School flights are those for the purpose of teaching and training pilots, carried out in school or flying club aircraft authorized by Agencia Estatal de Seguridad Aérea (Air Security State Agency), provided that the beginning and the end of the operation is performed at the same airport. Student pilots will be required to prove their status when presenting the Flight Plan to the Oficina de Notificación de los Servicios de Tránsito Aéreo (Air Traffic Services Notification Office)

Rates:

| | LANDING | AERODROME SERVICE |
|--|-----------|-------------------|
| Airport | € per Ton | € per Ton |
| Adolfo Suarez Madrid-Barajas | 5,938394 | 3,572311 |
| Josep Tarradellas Barcelona-El Prat | 5,720470 | 3,552410 |
| Alicante-Elche, Gran Canaria, Tenerife Sur, Málaga-Costa del Sol and Palma de Mallorca | 5,132080 | 3,492705 |
| Bilbao, Fuerteventura, Girona, Ibiza, César Manrique-Lanzarote, Menorca, Santiago, Sevilla, Tenerife Norte and Valencia | 5,132080 | 3,204135 |
| Almería, Asturias, Coruña, FGL Granada-Jaén, Jerez, La Palma, Reus, Seve Ballesteros Santander, Vigo and Zaragoza | 4,587273 | 2,517534 |
| Albacete, Algeciras, Badajoz, Burgos, Ceuta, Córdoba, Madrid Cuatro Vientos, Hierro, Huesca, La Gomera, León, Logroño, Melilla, Sabadell, Salamanca, San Sebastián, Son Bonet, Pamplona, Vitoria and Valladolid. | 4,053361 | 2,129455 |

Additionally, for undertaking maneuvers, approach operations or landing simulation, the total amount to be paid will be the result of adding to the above mentioned rates the result of the application of the following multiply coefficients for each 90 minutes or period, independently of the number of operations, to the previous rates.

| WEIGHT SECTIONS (Kg) | | Multiplier coefficient per 90 minutes or part thereof |
|----------------------|---------|---|
| From | To | |
| 1 | 4.999 | 2 |
| 5.000 | 40.000 | 6 |
| 40.001 | 100.000 | 5 |
| 100.001 | 250.000 | 4 |
| 250.001 | 300.000 | 3 |
| 300.001 | | 2 |

2.1.6 Out of operational service time

In airports with operational service time less than 24 hours, the amount corresponding to operations that take place out of operational service time published in the AD card for each airport in the AIP SPAIN, will be as follows. Notwithstanding, at airports whose operating schedule is the entire period between zero and six local time, the rates for flights out of operational service time will be the stated at paragraphs 2.1.1, 2.1.2 and 2.1.3:

2.1.6.1 Flights within European Economic Area airports and International flights:

| Airport | LANDING | AERODROME SERVICE |
|--|-----------|-------------------|

| Albacete, Algeciras, Badajoz, Burgos, Ceuta, Córdoba, Madrid Cuatro Vientos, Hierro, Huesca, La Gomera, León, Logroño, Melilla, Sabadell, Salamanca, San Sebastián, Son Bonet, Pamplona and Valladolid (*) | | 3,92 |

(*) The amounts established in section 2.1.1 will be applied to the cargo flights of these airports

2.1.6.2 Domestic flights in Canary Islands, Balearic Islands, Ceuta and Melilla (except Inter-Islands)

| Airport | LANDING | AERODROME SERVICE |
|--|-----------|-------------------|
| | € per Ton | € per Ton |
| Fuerteventura, Ibiza, César Manrique-Lanzarote, Menorca and Tenerife Norte | 27,270277 | 7,11 |
| La Palma | | 5,62 |
| Ceuta, Hierro, La Gomera, Melilla and Son Bonet (*) | | 3,92 |

(*) The amounts established in section 2.1.2 will be applied to the cargo flights of these airports

For private flights rates are the listed in paragraph 2.1.6.1.

2.1.6.3 Inter-Islands flights

| | LANDING | AERODROME SERVICE |
|--|-----------|-------------------|
| Airport | € per Ton | € per Ton |
| Fuerteventura, Ibiza, César Manrique-Lanzarote, Menorca and Tenerife Norte | | 7,11 |
| La Palma | 9,624804 | 5,62 |
| Hierro, La Gomera and Son Bonet (*) | | 3,92 |

(*) The amounts established in section 2.1.3 will be applied to the cargo flights of these airports

For private flights rates are the listed in paragraph 2.1.6.1.

2.2 PASSENGERS, PRMs AND SECURITY

Definition:

Passenger charge applies for the provision of airport facilities not accessible to visitors in terminals, aprons and runways, in order to make effective the contract of air carriage.

Security charge applies for baggage inspection and passenger control services as well as for the facilities and equipment required for the provision of control and surveillance services at aircraft movement areas, free access areas, controlled access zones and security restricted areas around the airport area.

PRMs charge applies for services that allow general mobility of passengers and necessary assistance to persons with reduced mobility (PRMs) to enable them to move from a point of arrival at the airport until the aircraft, or from there to an exit point, including boarding and disembarking.

Taxpayer:

Airlines, administrations, organizations and individuals carrying passengers who board at an airport managed by Aena, regardless of subsequent intermediate stages that the flight may perform and of its destination.

The amount of these charges may be passed on to passengers on the ticket price in a disaggregated way or not.

Rates:

Rates are shown in the following tables. Passengers on private flights, carried on aircrafts weighing less than 5 tons, will not pay these charges.

Passenger and security rates applicable to transfer passengers are reduced by 40%. For these purposes, transfer passenger means a passenger landing in an airport managed by Aena SME, S.A., on a flight, and board a new flight with the same ticket and at the same airport, within a maximum of 12 hours, with a different flight number and destination other than the origin.

From November to March, passenger and security rates at Palma de Mallorca, Menorca, Ibiza and Son Bonet Airports will be reduced by 20%.

2.2.1 Flights within European Economic Area airports and International flights:

| Airport | Passenger | | PRM | Security |
|---|-----------|---------------|------|----------|
| | E.E.A. | International | | |
| Adolfo Suarez Madrid-Barajas | 13,88 | 19,65 | 0,74 | 3,54 |
| Josep Tarradellas Barcelona-El Prat | 12,92 | 15,82 | | |
| Alicante-Elche, Gran Canaria, Tenerife Sur, Málaga-Costa del Sol and Palma de Mallorca | 5,77 | 8,67 | | |
| Bilbao, Fuerteventura, Ibiza, César Manrique-Lanzarote, Menorca, Santiago, Sevilla, Tenerife Norte and Valencia | 4,91 | 7,37 | | |
| Almería, Asturias, Coruña, Girona, FGL Granada-Jaén, Jerez, La Palma, Reus, Seve Ballesteros Santander, Vigo and Zaragoza | 3,52 | 5,28 | | |
| Albacete, Algeciras, Badajoz, Burgos, Ceuta, Córdoba, Madrid Cuatro Vientos, Hierro, Huesca Pirineos, La Gomera, León, Logroño, Melilla, Sabadell, Salamanca, San Sebastián, Son Bonet, Pamplona, Vitoria and Valladolid. | 2,30 | 3,47 | | |

€ per departing passenger

2.2.2 Domestic flights in Canary Islands, Balearic Islands, Ceuta and Melilla with the Peninsula:

| Airport | Passenger | PRM | Security |
|--|-----------|------|----------|
| Gran Canaria, Palma de Mallorca and Tenerife Sur | 4,91 | 0,63 | 3,01 |
| Fuerteventura, Ibiza, César Manrique-Lanzarote, Menorca and Tenerife Norte | 4,17 | | |
| La Palma | 2,99 | | |
| Ceuta, Hierro, La Gomera, Melilla and Son Bonet | 1,95 | | |

€ per departing passenger

Rates for private flights will be the ones under paragraph 2.2.1

2.2.3 Inter-Islands flights in Canary and Balearic Islands:

| Airport | Passenger | PRM | Security |
|--|-----------|------|----------|
| Gran Canaria, Palma de Mallorca and Tenerife Sur | 1,73 | 0,22 | 0,53 |
| Fuerteventura, Ibiza, César Manrique-Lanzarote, Menorca and Tenerife Norte | 1,48 | | |
| La Palma | 1,06 | | |
| Hierro, La Gomera and Son Bonet | 0,69 | | |

€ per departing passenger

Rates for private flights will be the ones under paragraph 2.2.1

2.3 AIRCRAFT PARKING

Definition

The use of the authorized aircraft parking zones in the airport.

This rate will not be applied when the aircraft is at an air bridge position or in a hangar. Parking time will be considered as the time in block time.

This rate will not be applied between 00:00 and 6:00, local time.

Taxpayer

Airlines, administrations, organizations, and individuals whose aircrafts are parked.

Rates

2.3.1 At Adolfo Suarez Madrid Barajas, Josep Tarradellas Barcelona-El Prat, Alicante-Elche, Gran Canaria, Tenerife Sur, Málaga-Costa del Sol, Palma de Mallorca, Bilbao, Fuerteventura, Girona, Ibiza, César Manrique-Lanzarote, Menorca, Santiago, Sevilla, Tenerife Norte y Valencia airports, this rate will be calculated with the following formula:

$E = e \cdot T_m \cdot F_t$, where:

E: total amount to pay for the service

e: unit rate

T_m: Maximum Take-Off Weight (MTOW) as the maximum certified take-off weight of the aircraft, expressed in metric tonnes, as appearing on the airworthiness certificate. In the event the weight is not known, the weight of the heaviest known aircraft of the same type will be used.

F_t: parking time per 15 minutes or part thereof.

The amount of the unit rates for each airport is as follows:

| Airport | € per quarter hour or part thereof | Maximum amount € | |
|---|------------------------------------|------------------|--|
| | | first 24 hours | maximum per 24 hours since 2 nd day |
| Adolfo Suarez Madrid-Barajas | 0,149919 | | |

2.4 USE OF AIR BRIDGES

Definition:

Use of airport facilities to provide boarding and disembarking services to passengers through air bridges or the use of an apron position that impedes the use of air bridges to other users.

Taxpayer The company that runs the aircraft.

Rates: This rate will be calculated by considering the aircraft’s weight and time at the air bridge with the following formula:

$$P = (p_1 + p_2 * T_m) * F_t, \text{ where:}$$

P: Total amount to pay for the service.

p₁: unit rate for the time in position at air bridge.

p_2 : unit rate for the aircraft's weight and time at the air bridge.

T_m : Maximum Take-Off Weight (MTOW) as the maximum certified take-off weight of the aircraft, expressed in metric tonnes, as appearing on the airworthiness certificate. In the event the weight is not known, the weight of the heaviest known aircraft of the same type will be used.

F_t : time that the aircraft remains at the air bridge, per 15 minutes or period.

Unit rates for p_1 and p_2 are shown in the table below:

| Airport | p_1 (€) | p_2 (€) |
|---|-----------|-----------|
| Adolfo Suárez Madrid-Barajas | 25,876276 | 0,00 |
| Josep Tarradellas Barcelona-El Prat | 23,460393 | 0,00 |
| Alicante-Elche, Gran Canaria, Tenerife Sur, Málaga-Costa del Sol and Palma de Mallorca | 20,632130 | 0,00 |
| Bilbao, Fuerteventura, Girona, Ibiza, César Manrique-Lanzarote, Menorca, Santiago, Sevilla, Tenerife Norte and Valencia | 19,838552 | 0,00 |
| Almería, Asturias, Coruña, FGL Granada-Jaén, Jerez, La Palma, Reus, Seve Ballesteros Santander, Vigo and Zaragoza | 19,838552 | 0,00 |
| Albacete, Algeciras, Badajoz, Burgos, Ceuta, Córdoba, Madrid Cuatro Vientos, Hierro, Huesca Pirineos, La Gomera, León, Logroño, Melilla, Sabadell, Salamanca, San Sebastián, Son Bonet, Pamplona, Vitoria and Valladolid. | 19,838552 | 0,00 |

For those aircrafts connected to more than an air bridge simultaneously, and parked in apron positions specially designed for this purpose, the rates for each additional air bridge will be reduced by 75%.

Between zero and six, local time, when an aircraft is in an apron position and the operating company requests a remote parking position but at that time that place is not available, or if the airport operator decides not to change it due to operational reasons, the airport shall disconnect the apron service and shall interrupt the computation of time for charging purposes. However, the company will be forced to move the aircraft to a remote parking position when it will be required because there is available position or because the previous reasons have disappeared. Failure to do this and the fact that it cannot be used by any other users, upon request, the rate to apply will be the one that would have been payable if such uses are not made.

EXEMPTION AND INCENTIVES

6. INCENTIVES

Incentive for operations on certain days of the week in the Canary Airports 2024

There is a right to a subsidy of 50% of the amount of landing and passengers charges, for flights in airports in the Canary Islands - with the exception of inter-island flights- the days of the week that are reflected in the following table, provided that the beneficiary of the subsidy maintains the number of operations already scheduled for the remaining days of the week, at the deadline set by the industry for the return of slots of the winter season (August 31) and summer (January 31) accordingly.

| Airport | Day of the week |
|----------------|------------------------|
| Fuerteventura | Tuesday and Friday |
| Gran Canaria | Tuesday |
| La Palma | All days |
| Lanzarote | Wednesday |
| Tenerife Norte | Saturday |
| Tenerife Sur | Thursday |

The enjoyment of this subsidy shall exclude the application of bonus for landing and passenger charges under Law 21/2003, Sections 75.7 and 78.3.

The subsidy must be requested during the month of January 2025, and will be met by Aena SME, S.A. offsetting the amount to any amounts owed by the beneficiaries and, if it cannot be possible in whole or in part, by payment in cash before May 31, 2025.

Extraordinary Incentive for La Palma Island Flights in 2024

This incentive means a 100% refund of the provision of airport facilities charge (passenger charge) in all flights that occur between the 1st of January 2024 to the 31st of December 2024 with a take-off from La Palma and arriving in Mainland Spain, Balearic Islands or an International destination. It is worth clarifying that this charge does not accrue on arrivals.

This commercial incentive shall not be accumulated with any other potential incentives that Aena may approve with effect on the passenger charge.

This incentive will apply at a rate that has already taken into account all applicable incentives and discounts to La Palma Airport related to the passenger charge¹.

Airlines can apply for this incentive until the 31st of January 2025. From that date onwards and before the 28th of February 2025, Aena shall accrue the incentive.

Once the incentive has been approved, Aena shall compensate the corresponding amount with any sums due by the beneficiaries, although this may not be possible in whole or in part by paying it in cash. In all cases, a breakdown of the monthly amounts to which the incentive will be applied will be made.

¹ The Airline must send a request for all the rest of discounts and incentives applicable to La Palma Airport.
March 2024 ed

Commercial Incentive for 2023 Summer and Winter season

Airlines shall be entitled to the incentives explained under this heading. The incentives are applicable in the Summer and Winter seasons of 2023. Seasons are defined in article 72.16¹ of Law 21/2003 of 7th July on Air Safety and are considered independently.

Incentive for **launching routes to new destinations**.

Incentive for **contribution to passenger growth on routes operated from airports in the network with less than 3 million** annual passengers in 2022 (Annex I)

Incentive for **contribution to passenger growth on routes to Asia** (Annex II) operated from all airports in the network.

The incentives of the previous paragraphs will be calculated as an amount equivalent to 100% of the average departure passenger charge (with two decimal figures) of the airline per route. The incentives shall apply exclusively to the number of additional departure passengers on the route concerned compared to the previous equivalent season that the airline carried at each airport of the Aena S.M.E., S.A 's network and Murcia Region International Airport (AIRM).

The incentive will be proportional to the contribution to the growth generated in that route by each of the airlines operating it.

In all the above, the number of passengers considered for the incentive of each airline will have the cap on the number of passengers that the airline has grown at the airport. In this case, their distribution by route will be proportional to the contribution of the airline to the growth of each route.

Additionally, for each airline, the number of passengers considered at route level will not be higher than its growth in the network of Aena S.M.E., S.A and AIRM. In this case, the distribution per route will be proportional to the passengers referred to in the previous paragraph.

To calculate the incentive, the number of passengers eligible for the incentive shall be rounded to the nearest whole number.

For the purpose of this incentive, a route is defined as the set of commercial² passenger air transport operations, departing from an Aena, S.M.E., S.A airport and/or AIRM and destined to another airport. It will be considered as the same route to the same destination, the one that even when operated to different airports, these are part of the same catchment area (Annex III).

¹ Season: Summer season is considered as months between April to October and Winter season as months between November to March

² The service types considered are J - Scheduled Passenger Flight, G - Scheduled Additional Passenger Flight, C - Passenger Charter Flight, S - Airlift, B - Additional Airlift.

Additionally, to qualify for this incentive, airlines must meet all and each of the following conditions:

- To transport at least 1500 departure commercial passengers during the Summer season, meaning between April 2023 to October 2023, and at least 1000 departure commercial passengers during Winter season, meaning between November 2023 to March 2024.
- Apply for the incentive before the end of October 2023 for the Summer 2023 season and before the end of March 2024 for the Winter 2023 season through the incentive application form available on Aena's Website:
<<https://www.aena.es/en/airlines/incentives-and-marketing-support/incentives.html>>

For the purpose of this incentive, it is considered that a route to a destination has not been operated in the previous equivalent season if it did not exceed 1000 departing passengers in the Winter season or 1500 in the Summer season. In this sense, to be considered a route operated in a Season, the route to a certain destination must exceed 1000 departing passengers in the Winter season and 1.500 in the Summer.

Aena, S.M.E., S.A. will inform if the airline is entitled to the incentive in December 2023 for the Summer 2023 season and in May 2024 for the Winter 2023 season.

Aena, S.M.E., S.A. shall compensate the corresponding amount with any amounts owed by the beneficiaries, although this may not be possible in whole or in part by paying it in cash.

To receive the incentive, the airline must be up to date with all payments with Aena S.M.E, S.A.

Aena, S.M.E., S.A. shall not proceed to a refund of the average departure passenger charge if, in order to benefit from this incentive or to have an effect on its amount, the airline would have been the recipient of an assignment or transfer of operations between itself and companies in the same group or with other companies with which it could share its flying program or align strategies.

In any case, if the situations described above arise as a result of purely operational aspects of the activity of airlines in the same group or which could share their flying programme, the corresponding amount of the incentive could be reduced in proportion to the effect of the transfer of operations carried out.

In the event of mergers, acquisitions or any other ownership changes of airlines that may affect this incentive, Aena S.M.E., S.A. reserves the right of treating those airlines as a single airline.

Aena S.M.E., S.A. reserves the right to refuse to apply the incentive if during the revision of the data and documents provided by airlines that have applied to it, it emerges that the application, any information or documentation provided is affected by errors, misleading information, omissions, or any type of inaccuracy.

Incentive scheme for helicopter regular commercial operations that originate in the heliports of Ceuta and Algeciras during the Summer 2023 and Winter 2023 seasons.

Companies shall be entitled to an incentive for maintaining the number of passengers carried on routes operated from the heliports of Algeciras and Ceuta.

This incentive scheme shall apply in Summer 2023 and Winter 2023 Seasons, defined in the law 21/2003 and they will be considered independently.

The incentive shall be calculated at an amount equivalent to 50% of the average departure passenger charge and security charge of the company on the route and it will apply to the total number of commercial departure passengers on the route, only if at least 75% of the departure passengers carried on the route in the previous equivalent season are maintained.

In addition, to qualify for the incentive, the company must maintain at the relevant heliport at least 75 per cent of passengers registered in the previous equivalent season.

For the purposes of this incentive, a route (combined commercial passenger transport operations from the Heliport of Ceuta or Algeciras and destination at another airport or heliport) to a destination shall be considered to have been operated if it exceeds, 750 departing commercial passengers during the Summer season 2023 and 500, in the Winter season 2023.

This incentive shall not be cumulative with any other incentive in force at the time of its application.

Applications for this incentive must be submitted the month after the season has finished. Aena, S.M.E., S.A. shall compensate this corresponding amount with any sums due by the beneficiaries.

If this was not possible in whole or in part, the amount shall be paid to the airline by Aena before the end of the month after the request.

The maintenance of passengers of each company may not be due to the mere assignment or transfer of operations between it and companies of the same group, or with other companies that may share their program or align strategies that may facilitate their access to the incentive or have an effect on the amount of the incentive. In this regard, Aena S.M.E., S.A. reserves the right to refuse to apply the incentive, if during the revision of the data and documents provided by airlines that have applied to it, it emerges that the application or any information or documentation provided is affected by errors, misleading information, omissions, any type of inaccuracy or if there is proof of non-compliance of any requirement or any align strategies with other airlines.

Furthermore, the airline must be up to date with all payments with Aena S.M.E., S.A. as a condition to qualify for this incentive.

Commercial Incentive for contribution to passenger growth on routes operated from airports with less than 3 million annual passengers 2024-2025-2026

Airlines shall be entitled to the incentives explained under this heading. The incentives are applicable in the Summer and Winter seasons of 2024, Summer and Winter 2025 and Summer and Winter 2026. Seasons are defined in article 72.16¹ of Law 21/2003 of 7th July on Air Safety and they are considered independently.

The incentive is for contributing to the growth in the number of passengers on routes operated from airports in the network with less than 3 million passengers annually in 2023 (Annex I), applicable in the summer and winter seasons of 2024, 2025, and 2026.

The incentive will be calculated as an amount equivalent to 100% of the average departure passenger charge (with two decimal figures) of the airline per route. The incentives shall apply exclusively to the number of additional departure passengers on the route concerned compared to the 2023 equivalent season that the airline carried at each airport of the Aena S.M.E., S.A 's network and Murcia Region International Airport (AIRM).

The incentive will be proportional to the contribution to the growth generated in that route by each of the airlines operating it.

In all the above, the number of passengers considered for the incentive of each airline will have the cap on the number of passengers that the airline has grown at the airport. In this case, their distribution by route will be proportional to the contribution of the airline to the growth of each route.

Additionally, for each airline, the number of passengers considered at route level will not be higher than its growth in the network of Aena S.M.E., S.A and AIRM. In this case, the distribution per route will be proportional to the passengers referred to in the previous paragraph.

To calculate the incentive, the number of passengers eligible for the incentive shall be rounded to the nearest whole number.

For the purpose of this incentive, a route is defined as the set of commercial² passenger air transport operations, departing from an Aena, S.M.E., S.A airport and destined to another airport. It will be considered as the same route to the same destination, the one that even when operated to different airports, these are part of the same catchment area (Annex II).

Furthermore, airlines must request the incentive through the incentive application form, available on the Aena website, at the beginning of each season and before the following months end:

- October 2024 for the summer season 2024 (from April 2024 to October 2024)
 - October 2025 for the summer season 2025 (from April 2025 to October 2025)
 - October 2026 for the summer season 2026 (from April 2026 to October 2026)
 - March 2025 for the winter season 2024 (from November 2024 to March 2025)
 - March 2026 for the winter season 2025 (from November 2025 to March 2026)
 - March 2027 for the winter season 2026 (from November 2026 to March 2027)
- <<https://www.aena.es/en/airlines/incentives-and-marketing-support/incentives.html>>

¹ Season: Summer season is considered as months between April to October and Winter season as months between November to March.

² The service types considered are J - Scheduled Passenger Flight, G - Scheduled Additional Passenger Flight, C – Passenger Charter Flight, S - Airlift, B - Additional Airlift.

To be considered an operated route for the season the route to a specific destination must exceed 1000 departing commercial passengers in the winter season and 1500 in the summer season.

Aena S.M.E., S.A. will communicate whether the airline is eligible for the incentive in December for the summer seasons and in May of the following year for the winter seasons.

Aena S.M.E., S.A. shall compensate the corresponding amount with any amounts owed by the beneficiaries. If it is not possible in whole or in part, it will be paid in cash.

To benefit from the incentive, the Financial Directorate must issue a favourable report based on the overall situation of the company's account with Aena, its risk coverage, and the regular compliance with its payment system.

The airline will not be entitled to the incentive if, with the intention of benefiting from it or influencing its amount, the company had been the recipient of the assignment or transfer of operations between itself and companies within the same group or with other companies with which it may share its program or align strategies.

If the situations described above arise as a result of purely operational aspects of the activity of companies within the same group that may share their program, or mergers, acquisitions, or changes in ownership of airlines that could affect the outcome of this incentive, Aena S.M.E., S.A. reserves the right to reduce the amount corresponding to the incentive. This will be made in proportion to the impact of the activity transfer carried out or to treat such companies as a single airline.

Aena S.M.E., S.A. reserves the right to refuse to apply the incentive if during the revision of the data and documents provided by companies that have applied to it, it emerges that the application or any information or documentation provided is affected by errors, misleading information, omissions, or any type of inaccuracy.

Commercial incentive for new routes to destinations not served at airports with more than 3 million passengers 2024-2025-2026

Airlines shall be entitled to the incentives explained under this heading. The incentives are applicable in the Summer and Winter seasons of 2024, Summer and Winter 2025 and Summer and Winter 2026. Seasons are defined in article 72.16¹ of Law 21/2003 of 7th July on Air Safety and they are considered independently.

The incentive is for the launch of routes to new destinations for the airport, from airports in the network with more than 3 million annual passengers in 2023 (Annex I), applicable in the summer and winter seasons of 2024, 2025, and 2026, except for routes with Asia as the destination (Annex II)

The incentive will be calculated as an amount equivalent to 100% of the average departure passenger charge (with two decimal figures) of the airline per route. The incentives shall apply exclusively to the number of additional departure passengers on the route concerned compared to the previous equivalent season that the airline carried at each airport of the Aena S.M.E., S.A 's network.

The incentive will be proportional to the contribution to the growth generated in that route by each of the airlines operating it.

In all the above, the number of passengers considered for the incentive of each airline will have the cap on the number of passengers that the airline has grown at the airport. In this case, their distribution by route will be proportional to the contribution of the airline to the growth of each route.

Additionally, for each airline, the number of passengers considered at route level will not be higher than its growth in the network of Aena S.M.E., S.A and AIRM. In this case, the distribution per route will be proportional to the passengers referred to in the previous paragraph.

To calculate the incentive, the number of passengers eligible for the incentive shall be rounded to the nearest whole number.

For the purpose of this incentive, a route is defined as the set of commercial² passenger air transport operations, departing from an Aena, S.M.E., S.A airport and destined to another airport. It will be considered as the same route to the same destination, the one that even when operated to different airports, these are part of the same catchment area (Annex III).

¹ Season: Summer season is considered as months between April to October and Winter season as months between November to March.

² The service types considered are J - Scheduled Passenger Flight, G - Scheduled Additional Passenger Flight, C – Passenger Charter Flight, S - Airlift, B - Additional Airlift.

Furthermore, airlines must request the incentive through the incentive application form, available on the Aena website, at the beginning of each season and before the following months end:

- October 2024 for the summer season 2024 (from April 2024 to October 2024)
- October 2025 for the summer season 2025 (from April 2025 to October 2025)
- October 2026 for the summer season 2026 (from April 2026 to October 2026)
- March 2025 for the winter season 2024 (from November 2024 to March 2025)
- March 2026 for the winter season 2025 (from November 2025 to March 2026)
- March 2027 for the winter season 2026 (from November 2026 to March 2027)

<<https://www.aena.es/en/airlines/incentives-and-marketing-support/incentives.html>>

For the purpose of this incentive, it is considered that a route to a destination has not been operated in the previous equivalent season if it did not exceed 1000 departing passengers in the winter season or 1500 in the summer season.

To be considered an operated route for the season the route to a specific destination must exceed 1000 departing passengers in the winter season and 1500 in the summer season.

Aena S.M.E., S.A. will communicate whether the airline is eligible for the incentive in December for the summer seasons and in May of the following year for the winter seasons.

Aena, S.M.E., S.A. shall compensate the corresponding amount with any amounts owed by the beneficiaries. If it is not possible in whole or in part, it will be paid in cash.

To benefit from the incentive, the Financial Directorate must issue a favourable report based on the overall situation of the company's account with Aena, its risk coverage, and the regular compliance with its payment system.

The airline will not be entitled to the incentive if, with the intention of benefiting from it or influencing its amount, the company had been the recipient of the assignment or transfer of operations between itself and companies within the same group or with other companies with which it may share its program or align strategies.

If the situations described above arise as a result of purely operational aspects of the activity of companies within the same group that may share their program, or mergers, acquisitions, or changes in ownership of airlines that could affect the outcome of this incentive, Aena S.M.E., S.A. reserves the right to reduce the amount corresponding to the incentive. This will be made in proportion to the impact of the activity transfer carried out or to treat such companies as a single airline.

Aena S.M.E., S.A. reserves the right to refuse to apply the incentive if during the revision of the data and documents provided by companies that have applied to it, it emerges that the application or any information or documentation provided is affected by errors, misleading information, omissions or any type of inaccuracy.

Commercial Incentive for contribution to passenger growth on routes to Asia 2024-2025-2026

Airlines shall be entitled to the incentives explained under this heading. The incentives are applicable in the Summer and Winter seasons of 2024, Summer and Winter 2025 and Summer and Winter 2026. Seasons are defined in article 72.16¹ of Law 21/2003 of 7th July on Air Safety and they are considered independently.

The incentive is for contributing to the growth in the number of passengers on routes to Asia (Annex I) operated from all airports in the network, applicable in the summer and winter seasons of 2024, 2025, and 2026.

The incentive will be calculated as an amount equivalent to 100% of the average departure passenger charge (with two decimal figures) of the airline per route. The incentives shall apply exclusively to the number of additional departure passengers on the route concerned compared to the previous equivalent season that the airline carried at each airport of the Aena S.M.E., S.A 's network.

The incentive will be proportional to the contribution to the growth generated in that route by each of the airlines operating it.

In all the above, the number of passengers considered for the incentive of each airline will have the cap on the number of passengers that the airline has grown at the airport. In this case, their distribution by route will be proportional to the contribution of the airline to the growth of each route.

Additionally, for each airline, the number of passengers considered at route level will not be higher than its growth in the network of Aena S.M.E., S.A and AIRM. In this case, the distribution per route will be proportional to the passengers referred to in the previous paragraph.

To calculate the incentive, the number of passengers eligible for the incentive shall be rounded to the nearest whole number.

For the purpose of this incentive, a route is defined as the set of commercial² passenger air transport operations, departing from an Aena, S.M.E., S.A, airport and destined to an Asian airport.

Furthermore, airlines must request the incentive through the incentive application form, available on the Aena website, at the beginning of each season and before the following months end:

- October 2024 for the summer season 2024 (from April 2024 to October 2024)
 - October 2025 for the summer season 2025 (from April 2025 to October 2025)
 - October 2026 for the summer season 2026 (from April 2026 to October 2026)
 - March 2025 for the winter season 2024 (from November 2024 to March 2025)
 - March 2026 for the winter season 2025 (from November 2025 to March 2026)
 - March 2027 for the winter season 2026 (from November 2026 to March 2027)
- <<https://www.aena.es/en/airlines/incentives-and-marketing-support/incentives.html>>

¹ Season: Summer season is considered as months between April to October and Winter season as months between November to March.

² The service types considered are J - Scheduled Passenger Flight, G - Scheduled Additional Passenger Flight, C – Passenger Charter Flight, S - Airlift, B - Additional Airlift.

To be considered an operated route for the season the route to a specific destination must exceed 1000 departing passengers in the winter season and 1500 in the summer season.

Aena S.M.E., S.A. will communicate whether the airline is eligible for the incentive in December for the summer seasons and in May of the following year for the winter seasons.

Aena, S.M.E., S.A. shall compensate the corresponding amount with any amounts owed by the beneficiaries. If it is not possible in whole or in part, it will be paid in cash.

To benefit from the incentive, the Financial Directorate must issue a favourable report based on the overall situation of the company's account with Aena, its risk coverage, and the regular compliance with its payment system.

The airline will not be entitled to the incentive if, with the intention of benefiting from it or influencing its amount, the company had been the recipient of the assignment or transfer of operations between itself and companies within the same group or with other companies with which it may share its program or align strategies.

If the situations described above arise as a result of purely operational aspects of the activity of companies within the same group that may share their program, or mergers, acquisitions, or changes in ownership of airlines that could affect the outcome of this incentive, Aena S.M.E., S.A. reserves the right to reduce the amount corresponding to the incentive. This will be made in proportion to the impact of the activity transfer carried out or to treat such companies as a single airline.

Aena S.M.E., S.A. reserves the right to refuse to apply the incentive if during the revision of the data and documents provided by companies that have applied to it, it emerges that the application or any information or documentation provided is affected by errors, misleading information, omissions, or any type of inaccuracy.

Annex I: For the purpose of this incentive, the following are considered destinations in Asia:

| | | | |
|-------------|-------------|-----------|--------------|
| Afghanistan | South Korea | Laos | Sri Lanka |
| Bangladesh | Philippines | Macao | Thailand |
| Bhutan | Hong Kong | Malaysia | Taiwan |
| Burma | India | Maldives | Tajikistan |

| China | Kazakhstan | Pakistan | Uzbekistan |
| North Korea | Kyrgyzstan | Singapore | Vietnam |

Incentive scheme for helicopter regular commercial operations that originate in the heliports of Ceuta and Algeciras during the Summer and Winter seasons 2024, 2025 and 2026.

Companies shall be entitled to an incentive for maintaining the number of passengers carried on routes operated from the heliports of Algeciras and Ceuta.

This incentive scheme shall apply in summer and winter 2024, in summer and winter 2025, in summer and winter 2026 seasons, defined in the law 21/2003 and they will be considered independently.

The incentive shall be calculated at an amount equivalent to 50% of the average departure passenger charge and security charge of the company on the route and it will apply to the total number of commercial departure passengers on the route, only if at least 75% of the departure passengers carried on the route in the previous equivalent season are maintained.

In addition, to qualify for the incentive, the company must maintain at the relevant heliport at least 75% of passengers registered in the previous equivalent season.

For the purposes of this incentive, a route (combined commercial passenger transport operations from the Heliport of Ceuta or Algeciras and destination at another airport or heliport) to a destination shall be considered to have been operated if it exceeds, 750 departing commercial passengers during the summer season and 500 departing commercial passengers during the winter season.

This incentive shall not be cumulative with any other incentive in force at the time of its application.

Furthermore, airlines must request the incentive through the incentive application form, available on the Aena website, at the beginning of each season and before the following months end:

- October 2024 for the summer season 2024 (from April 2024 to October 2024)
- October 2025 for the summer season 2025 (from April 2025 to October 2025)
- October 2026 for the summer season 2026 (from April 2026 to October 2026)
- March 2025 for the winter season 2024 (from November 2024 to March 2025)
- March 2026 for the winter season 2025 (from November 2025 to March 2026)
- March 2027 for the winter season 2026 (from November 2026 to March 2027)

<<https://www.aena.es/en/airlines/incentives-and-marketing-support/incentives.html>>

Aena S.M.E., S.A. will communicate whether the airline is eligible for the incentive in December for the summer seasons and in May of the following year for the winter seasons.

The corresponding amount resulting from the application of this incentive will be offset by Aena S.M.E., S.A. against any amounts owed by the beneficiaries. If it is not possible in whole or in part, it will be paid in cash.

To benefit from the incentive, the Financial Directorate must issue a favourable report based on the overall situation of the company's account with Aena, its risk coverage, and the regular compliance with its payment system.

The airline will not be entitled to the incentive if, with the intention of benefiting from it or influencing its amount, the company had been the recipient of the assignment or transfer of operations

between itself and companies within the same group or with other companies with which it may share its program or align strategies.

If the situations described above arise as a result of purely operational aspects of the activity of companies within the same group that may share their program, or mergers, acquisitions, or changes in ownership of airlines that could affect the outcome of this incentive, Aena S.M.E., S.A. reserves the right to reduce the amount corresponding to the incentive. This will be made in proportion to the impact of the activity transfer carried out or to treat such companies as a single airline.

Aena S.M.E., S.A. reserves the right to refuse to apply the incentive if during the revision of the data and documents provided by companies that have applied to it, it emerges that the application or any information or documentation provided is affected by errors, misleading information, omissions, or any type of inaccuracy.

Exemptions

No aeronautical charges shall be satisfied, referred to in this guide, by the operations performed by the Spanish state aircrafts, aircraft serving for autonomous communities and other local entities, provided that they perform non commercial public services, and foreign State aircrafts, in the case that the Nations to which they belong have similar exemption for Spanish state aircrafts.

OTHER ENTITIES CHARGES

7. TAXES AND CHARGES OF ENTITIES DIFFERENT FROM AENA

This heading shows charges of services provided by entities other than Aena. Notwithstanding Aena has the duty of their invoicing. The incomes collected are not part of Aena's revenues.

7.1 SAFETY & SECURITY TAX

Definition:

The tax covers the activities and services of supervision and inspection performed by the Agencia Estatal de Seguridad Aérea (AESA) for safety and security reasons. The amount of this tax will be collected by Aena and then will be transferred to AESA.

Taxpayer:

Passengers boarding at an airport managed by Aena, regardless of subsequent intermediate stages that the flight may perform and of its destination. Airlines, administrations, organizations and individuals carrying passengers to replace the aforementioned.
