

ANNEX I TEMPLATE
ANNUAL REPORT ON DIRECTOR REMUNERATION OF LISTED
COMPANIES

ISSUER IDENTIFICATION DETAILS

YEAR END-DATE

31/12/2020

TAX ID (CIF) A-86212420

Company name:

AENA, S.M.E., S.A.

Registered office:

PEONÍAS 12, MADRID

ANNUAL REPORT ON DIRECTOR REMUNERATION OF LISTED COMPANIES

A REMUNERATION POLICY OF THE COMPANY FOR THE CURRENT FINANCIAL YEAR

A.1. Explain the current director remuneration policy applicable to the year in progress. To the extent that it is relevant, certain information may be included in relation to the remuneration policy approved by the General Shareholders' Meeting, provided that these references are clear, specific and concrete.

Such specific determinations for the current year as the board may have made in accordance with the contracts signed with the executive directors and with the remuneration policy approved by the General Shareholders' Meeting must be described, as regards directors' remuneration both in their capacity as such and for executive functions carried out.

In any case, the following aspects must be reported, as a minimum:

- Description of the procedures and company bodies involved in determining and approving the remuneration policy and its terms and conditions.
- Indicate and, where applicable, explain whether comparable companies have been taken into account in order to establish the company's remuneration policy.
- Information on whether any external advisors took part in this process and, if so, their identity.

With regard to remuneration conditions, Aena, S.M.E, S.A. (hereinafter "Aena" or the "Company"), is a listed State-owned company subject to the applicable public sector regulations, which prevail over private law regulations, given the mandatory and special nature of the public regulations, in accordance with the Report of the State Attorney's Office dated 15 February 2016.

The prevailing application of public regulation to Aena impacts issues as substantial for a listed company as the Remuneration Policy for Directors and executives, the acquisition of majority equity interests in other companies, hiring of personnel, the Directors' liability system, etc.

Aena is therefore subject to the regulatory framework applicable to the remuneration model for senior managers and executives in public sector companies and also to provisions for remuneration for all employees in the corresponding General State Budget Acts.

Specifically, Aena is subject to:

a) In terms of remuneration for its senior managers and executives (and which also applies to its Chairman-Chief Executive Officer and Managing Director of Airports due to their performance of executive duties), to the regulation set forth in Royal Decree 451/2012, of 5 March, which regulates the system of remuneration for senior managers and executives in public sector companies, the 8th additional provision of Royal Decree-Law 3/2012, of 10 February, on urgent measures for the reform of the labour market concerning the remuneration of senior managers and executives in the public sector; and the precepts of the General State Budget Acts relating to personnel costs;

Royal Decree-Law 2/2020, of 21 December 2020, on urgent measures concerning the remuneration in the public sector; and

b) in relation to the remuneration of the members of the Board of Directors in the Order by the Ministry of Finance and Public Administrations of 8 January 2013 (the "Order").

Likewise, Aena has no discretion to set remuneration under the terms indicated in Article 217.4 of the Corporate Enterprises Act, but it can only propose a remuneration range at levels in accordance with those set forth in prevailing laws.

Consequently, the remuneration of the Directors is predetermined by public regulations, which prevail over the rules regulating corporate enterprises.

For these purposes, the remuneration of the Directors, excluding expenses which may be reimbursed, is as follows:

(i) Non-executive Directors receive an amount of 1,090.36 euros as a per diem for attendance at each Board meeting up to a maximum of 11,994 euros per year. In compliance with the aforementioned regulations, the annual amount per Director cannot exceed this annual limit in any case.

Additionally, the Order provides that the sums can be increased by a maximum of 1,520 euros annually for attendance at audit committees and other delegated committees, in those companies which on the entry into force of the Order had been giving an allowance for attendance at these committees. For these purposes, it is reported that since Aena was not giving any allowance for such attendance, the maximum sum of expenses allowed has not been increased, maintaining the maximum amount as stipulated in the Order.

(ii) The only executive directors are the Chairman-Chief Executive Officer and the Managing Director of Airports.

The Chairman-Chief Executive Officer, pending the application of the salary review for 2020, set out in Royal Decree-Law 2/2020 of 21 January 2020, which approves urgent measures regarding remuneration in the public sector, receives a fixed remuneration of 111,709.56 per year (consolidated).

He also receives additional remuneration, also pending the application of the salary review set out in Royal Decree-Law 2/2020 of 21 January 2020, comprising a job allowance (44,683.82 euros) and a variable allowance (12,505.35 euros) which does not exceed the maximum percentage set for the group in which Aena is classified, which is Group 1.

The Managing Director of Airports (Mr. Francisco Javier Marín San Andrés) was appointed as an executive director on 29 October 2020 and, pending the application of the salary review for 2020, as set out in Royal Decree-Law 2/2020 of 21 January 2020, which approves urgent measures regarding remuneration in the public sector, he has received, for his executive position since his appointment as Director, a fixed remuneration amounting to 15,780.24 euros. He also received a job allowance (3,748.55 euros) and a variable allowance (4,490.95 euros).

The salary review for 2020, pending application, set out in Royal Decree-Law 2/2020 of 21 January 2020, consists of a 2% increase on the remuneration in force at 31 December 2019.

(iii) Aena Directors who also hold senior posts or are senior managers or executives in the public sector do not receive the per diem indicated in section (i) above, and the amount relate to the Senior posts is deposited by Aena in the Public Treasury.

In 2020, Mr. Maurici Lucena Betriu, Mr. Angel Luis Arias Serrano, Mr. Ignacio Díaz Bidart, Ms. Angélica Martínez Ortega, and Mr. Francisco Javier Martín Ramiro until 29 October 2020 (when he stepped down from his duties as a Director of Aena) have been considered as occupying senior posts and therefore their allowances are paid into the Public Treasury.

Likewise, Mr. Francisco Javier Marín San Andrés, executive director of the Company since 29 October 2020, does not receive the allowance for attendance to the Board of Directors as he is the Managing Director of Airports, subject to Royal Decree 451/2012, of 5 March, which regulates the remuneration system for senior managers and executives in the public business sector and other entities. Article 8.1 of the Decree sets out the incompatibility of this salary remuneration with the receipt of indemnities provided for in Article 27.1.a) of RD 462/2002, of 24 May, on indemnities for reasons of service, which regulates the payment for attendance at meetings of the Board of Directors.

For all the above, Aena continues to be a listed company that does not have a Remuneration Policy in accordance with the best practices of good corporate governance as required by the CNMV Code of Good Governance of Listed Companies and Spain's Corporate Enterprises Act, given that the aforementioned public regulations are applicable.

Aena cannot propose a Remuneration Policy comparable to those of the other Spanish listed companies (both those belonging to the IBEX-35 index and the others) since, unlike Aena, the latter companies have established remuneration, both for the mere exercise of the post of Director (or for being a member of a Board Committee) and for the performance of executive functions, which is much higher than that of Aena since the amounts are not restricted by any imperative rule (as they are by the Published Ministerial Order in Aena's case).

Thus, in this Annual Remuneration Report it is necessary to point out that Aena cannot follow the Recommendations of the Code of Good Governance of Listed Companies regarding the remuneration of Directors, as has also been stated in the Annual Corporate Governance Report. Specifically, the recommendations it cannot comply with and which concern the remuneration of Directors are 51, 56, 57, 58, 59, 60, 61, 62 and 63.

In line with the above, and in the absence of a Remuneration Policy, the Company has not required the participation of any external consultant to establish such a Policy.

- Relative importance of variable remuneration items vis-à-vis fixed remuneration (remuneration mix) and the criteria and objectives taken into consideration in their determination and to ensure an appropriate balance between the fixed and variable components of the remuneration. In particular, indicate the actions taken by the company in relation to the remuneration system to reduce exposure to excessive risks and to align it with the long-term objectives, values and interests of the company, which will include, as the case may be, mention of the measures taken to ensure that the long-term results of the company are taken into account in the remuneration policy, the measures adopted in relation to those categories of personnel whose professional activities have a material impact on the risk profile of the company and measures in place to avoid conflicts of interest.

Furthermore, indicate whether the company has established any period for the accrual or vesting of certain variable remuneration items, in cash, shares or other financial instruments, any deferral period in the payment of amounts or delivery of accrued and vested financial instruments, or whether any clause has been agreed reducing the deferred remuneration not yet vested or obliging the director to return remuneration received, when such remuneration has been based on figures that have since been clearly shown to be inaccurate.

--

Variable remuneration affects the Chairman-Chief Executive Officer and Mr. Francisco Javier Marín San Andrés, as Managing Director of Airports, due to their executive duties in accordance with Article 7 of Royal Decree 451/2012, of 5 March, regulating the remuneration system for senior managers and executives in the public business sector and other entities, that establishes the assignment by whoever exercises financial control or supervision, by the shareholder or, failing that, by the Ministry for the entities included in its scope of application, of the supplement for the post and the variable remuneration supplement for their senior managers and executives.

Given the criteria set forth in this Article and the limits set by the Ministry of Finance and Public Administration Order, of 12 April 2012, which approves the classification of public business entities and other public law entities, pursuant to the aforementioned Royal Decree 451/2012, the Ministry of Public Works in its Order of 31 July 2014 set the CEO's variable remuneration, which amounts to 12,505.35 euros, pending the salary review for 2020 set forth in Royal Decree-Law 2/2020 of 21 January 2020 on urgent measures concerning remuneration in the public sector.

Likewise, taking into account the criteria set forth in the regulations mentioned in the previous paragraph, the Ministry of Public Works resolved to set the amount of the variable allowance of the Managing Director of Airports, which, for the period since his appointment as Director, amounts to 4,490.95 euros, pending application of the salary review for 2020 set forth in Royal Decree-Law 2/2020, of 21 January 2020, which approves urgent measures regarding remuneration in the public sector.

The salary review for 2020, pending application, set out in Royal Decree-Law 2/2020 of 21 January 2020, consists of a 2% increase on the remuneration in force at 31 December 2019.

The incentive depends on the total attainment of the company's targets for the Chairman-Chief Executive Officer, while for the Managing Director this accounts for 80% of the incentive, the other 20% pertaining to achieving personal values.

The Company's targets are specified in the following metrics:

1. COVID-19 operational expenditure reduction plan: Achieve the planned average monthly savings level with respect to the 2020 Operational Plan.
2. COVID-19 Investment Reduction Plan: Achieve the reduction in terms of certification with respect to the 2020 Operational Plan.
3. Availability of liquidity: Achieve sufficient level of funding.
4. Financing: Comply with debt covenants or, in the event of default, obtain sufficient waivers to ensure business continuity.
5. Operational Recovery Plan Phase 1: Comply with the milestones established in the Operational Recovery Plan.

The calculation of the amount of the variable remuneration will consider the degree of compliance and weighting of each of the targets and will apply the standards and internal procedures for evaluation of targets established by the Company for its executives. At the end of the year, the degree of achievement will be determined.

The maximum global supplement for the five above targets may not exceed 100%. The annual variable remuneration is paid entirely in cash.

The amount to be received as variable supplement accrued during the financial year by the Executive Directors is paid in two parts: 80% of the amount due is paid in December of the financial year and the remaining 20% is paid in March of the following year once the final year-end data have been obtained.

At Aena there is no deferral period in the payment of amounts already accrued and vested and therefore no clause has been agreed to reduce deferred remuneration. At the end of the year, the degree of attainment of the objectives by the Executive Directors is assessed and the corresponding variable remuneration is paid.

- Amount and nature of fixed components that are due to be accrued during the year by directors in their capacity as such.

--

As indicated above, Non-executive Directors receive a per diem for attendance at each Board meeting up to a maximum of 11,994 euros per year, in compliance with the aforementioned regulations.

- Amount and nature of fixed components that are due to be accrued during the year for the performance of senior management functions of executive directors.

--

The only executive directors are the Chairman-Chief Executive Officer and the Managing Director of Airports, the latter since he was appointed on 29 October 2020.

The Chairman-Chief Executive Officer, pending the application of the salary review for 2020, set out in Royal Decree-Law 2/2020 of 21 January 2020, which approves urgent measures regarding remuneration in the public sector, receives a fixed remuneration of 111,709.56 a year.

He also receives additional remuneration, also pending the application of the salary review set out in Royal Decree-Law 2/2020 of 21 January 2020, comprising a job allowance (44,683.82 euros) and a variable allowance (12,505.35 euros) which does not exceed the maximum percentage set for the group in which Aena is classified, which is Group 1.

The Managing Director of Airports (Mr. Francisco Javier Marín San Andrés), pending the application of the salary review for 2020, as set out in Royal Decree-Law 2/2020 of 21 January 2020, which approves urgent measures regarding remuneration in the public sector, has received, for his executive position since his appointment as executive director on 29 October 2020, a fixed remuneration amounting to 15,780.24 euros, in addition to a job allowance (3,748.55 euros) and a variable allowance (4,490.95 euros).

The salary review for 2020, pending application, set out in Royal Decree-Law 2/2020 of 21 January 2020, consists of a 2% increase on the remuneration in force at 31 December 2019.

As the two executive directors of Aena are also considered senior executives (in the case of the Chairman-Chief Executive Officer) or managers (in the case of the Managing Director of Airports) and their remuneration is regulated by Royal Decree 451/2012, of 5 March, which regulates the remuneration system for senior managers and executives in the public business sector and other entities, they do not receive the allowance for attending Board meetings, as this is incompatible with the allowance they receive for their executive function, as established in Article 8 of the aforementioned Royal Decree 451/2012, of 5 March. Accordingly, Aena pays the amount related to the Chairman-Chief Executive Officer into the Public Treasury.

- Amount and nature of any component of remuneration in kind that will accrue during the year, including, but not limited to, insurance premiums paid in favour of the director.

--

Executive Directors are the beneficiaries of the group life and accident insurance and health insurance policies that are taken out for all employees of the company, which do not, however, apply to the other Directors.

These policies are imputed as remuneration in kind. In the case of the Life and Accident Insurance Policy, the whole of the premium is considered as payment in kind and, in the case of the Health Insurance, the sum which exceeds 500 euros annually is considered as payment in kind, a sum which in 2020 has not been surpassed.

The Life and Accident Insurance premium accrued during 2020 by the holder who has held the position of Chairman-Chief Executive Officer, Mr. Maurici Lucena Betriu, amounts to 81.84 euros and the Life and Accident Insurance premium accrued, since his appointment as Executive Director on 29 October 2020, by the holder who has held the position of Managing Director of Airports, Mr. Francisco Javier Marín San Andrés, amounts to 58.65 euros.

The Managing Director of Airports, Mr. Francisco Javier Marín San Andrés, also receives remuneration in kind which consists of the use of a company vehicle and fuel allowance which, for the period since his appointment as Executive Director, amounts to 651.70 euros.

- Amount and nature of variable components, differentiating between those established in the short and long terms. Financial and non-financial, including social, environmental and climate change parameters selected to determine variable remuneration for the current year, explaining the extent to which these parameters are related to performance, both of the director and of the company, and to its risk profile, and the methodology, necessary period and techniques envisaged to be able to determine the effective degree of compliance, at the end of the year, with the parameters used in the design of the variable remuneration, explaining the criteria and factors applied in regard to the time required and methods of verifying that the performance or any other conditions linked to the accrual and vesting of each component of variable remuneration have effectively been met.

Indicate the range, in monetary terms, of the different variable components according to the degree of fulfilment of the objectives and parameters established, and whether any maximum monetary amounts exist in absolute terms.

--

[Aena sets variable remuneration for a single financial year.](#)

[Article 7 of Royal Decree 451/2012, of 5 March, regulating the remuneration system for senior managers and executives in the public business sector and other entities, establishes the assignment by whoever exercises financial control or supervision, by the shareholder or, failing that, by the Ministry for the entities included in its scope of application, of the supplement for the post and the variable remuneration supplement for their senior managers and executives.](#)

[The calculation of the amount of the variable remuneration will consider the degree of compliance and weighting of each of the targets set forth in the previous paragraphs and will apply the standards and internal procedures for evaluation of targets established by the Company for its executives. At the end of the year, the degree of achievement will be determined.](#)

The evaluation relates to the financial year 2020, from January 1 to December 31, however, it is necessary to remain at least four months (4) performing the position, in order to be evaluable.

As regards the methods for verifying that the performance conditions have been effectively satisfied to be able to say that the target has been met, the Economic-Financial Department has verified that the targets have been met in the following way:

- Quantitative targets, Target 1. Operating Expense Reduction Plan and Target 2. Investment Reduction Plan with the financial information available in the Company's systems.
- Target 3. Availability of Liquidity, financing was obtained (between March and May 2020).
- Target 4. Financing, to comply with debt covenants or, in the event of default, to obtain sufficient waivers to guarantee business continuity. Attached is a link to the relevant fact of the CNMV where the formal announcement is made.
 - Link to the pdf: <https://www.cnmv.es/Portal/verDoc.axd?t={1368c79a-b916-4f01-a1b3-d86bc38e6fbc}>
 - Link to the CNMV website (press release of 3/12/2020): <https://www.cnmv.es/Portal/Otra-Informacion-Relevante/Resultado-OIR.aspx?nif=A86212420>
- Target 5. Operational Recovery Plan Phase 1, has been broken down into four different milestones that summarise all the measures implemented in the aeronautical and commercial field.

The overall maximum compliance with the targets set may not exceed 100% and therefore the monetary amount set in the implementing rules may not be exceeded.

- Main characteristics of long-term savings schemes. Among other information, indicate the contingencies covered by the scheme, whether it is a defined contribution or a defined benefit scheme, the annual contribution that has to be made to defined contribution schemes, the benefits to which directors are entitled in the case of defined benefit schemes, the vesting conditions of the economic rights of directors and their compatibility with any other type of payment or indemnification for early termination or dismissal, or deriving from the termination of the contractual relationship, in the terms provided, between the company and the director.

Indicate whether the accrual or vesting of any of the long-term savings plans is linked to the attainment of certain objectives or parameters relating to the director's short- or long-term performance.

--

Once the stipulated waiting period has ended, the Executive Directors, in general, will be participants in the Joint Promotion Pension Plan for Entities in the Aena Group and they will not be bound by any parameter or achievement of objectives.

The Joint Promotion Pension Plan for Entities in the Aena Group was set up with an open-ended duration on 27 December 2001 and is a social insurance scheme which is private, voluntary and independent of the public social security system. The nature of its members means it is an employment scheme due to the stipulated defined contribution obligations.

This Plan covers the following contingencies:

- a) Retirement of the participant or participant on hold.
- b) Total permanent disability for the usual profession, absolute disability for any work and great disability of the participant or participant on hold. These situations may be considered so if recognised and declared by the National Institute of Social Security or competent body or, where appropriate, by the competent Jurisdictional Body.
- c) Death of the participant, participant on hold or beneficiary.

Being a participant in the Plan is compatible with other types of compensation for early termination or termination of the contractual relationship between the company and the Director.

The consolidated rights of the participant will include the part of the capitalisation fund that corresponds to him/her based on the contributions, as well as the benefits generated by the resources invested, taking care, as the case may be, of the losses, costs and expenses that may have occurred. In this sense, the contribution made by the company will be governed by what is indicated in the General State Budgets Act in force each year.

During 2020, the contributions for the financial years 2018 (according to the final paragraph of Article 18 Two of Law 6/2018, of 3 July, on the General State Budget for 2018) and 2019 (according to the final paragraph of Article 3 Two of Royal Decree-Law 24/2018, of 2 December, approving urgent measures regarding remuneration in the public sector) have been made for the Chairman-Chief Executive Officer. They amount to 889.96 euros.

The contributions made during 2020 for the Managing Director of Airports (executive director since 29 October 2020) relate to the financial years 2018 and 2019, before he was appointed as a Director.

The contributions pending to be made, corresponding to 2020, consist of an additional increase of 0.30%, included in Royal Decree-Law 2/2020, of 21 January 2020, approving urgent measures in the area of remuneration in the public sector.

- Any type of payment or indemnification for early termination or dismissal, or deriving from the termination of the contractual relationship, in the terms provided, between the company and the director, whether at the company's or the director's initiative, as well as any type of agreement reached, such as exclusivity, post-contractual non-competition, minimum contract term or loyalty, that entitles the director to any kind of remuneration.

In the case of the Chairman-Chief Executive Officer's contract being terminated by the Company in the absence of any of the causes for its termination (unfair conduct or conduct seriously prejudicial to the interests of the Company or meaning non-compliance with their obligations) and when the contract is ended by the Director's unilateral decision as a consequence of serious contractual non-compliance with its obligations by the Company, the Director, as he is not a national, regional or local public sector official or employee, will have the right to a severance package equivalent to seven days' of his annual salary per year of service, with the limit of six months' remuneration.

If the Company were to terminate the contract of the Managing Director of Airports (who has been an executive director since 29 October 2020) in the absence of any of the causes for his termination (unfair conduct or conduct which seriously damages the

Company's interests or implying non-compliance with their obligations) and when the contract is ended by the Director's unilateral decision as a consequence of serious contractual non-compliance by the Company with its obligations, the Director, as he/she is an employee of a state public sector company with a reserved position, will not be entitled to any severance package whatsoever, except for that for failure to give advance notice.

- Indicate the conditions that contracts of executive directors performing senior management functions must contain. Among other things, information must be provided on the duration, limits on amounts of indemnification, minimum contract term clauses, notice periods and payment in lieu of these notice periods, and any other clauses relating to signing bonuses, as well as compensation or golden parachute clauses for early termination of the contractual relationship between the company and the executive director. Include, among others, the pacts or agreement on non-competition, exclusivity, minimum contract terms and loyalty, and post-contractual non-competition, unless these have been explained in the previous section.

The legal system applicable to the Company's contract with the Chairman-Chief Executive Officer is the eighth additional provision of Royal Decree-Law 3/2012, of 10 February, on urgent measures for the reform of the labour market, Royal Decree 451/2012, of 5 March, regulating the remuneration regime for senior managers and executives in the public business sector and other entities, and other applicable legal provisions or regulations.

The duration of the Chairman-Chief Executive Officer's contract is open-ended and no financial compensation is provided for in the event of termination of the contractual relationship with the Company when such termination is the result of the Director's non-compliance with their obligations.

In the case of the Chairman-Chief Executive Officer's contract being terminated by the Company in the absence of any of the following causes: unfair conduct or conduct seriously prejudicial to the interests of the Company or meaning non-compliance with their obligations, and when the contract is ended by the Director's unilateral decision as a consequence of serious contractual non-compliance with its obligations by the Company, the Chairman-Chief Executive Officer, as he is not a national, regional or local public sector official or employee, will have the right to a severance package equivalent to seven days' of his annual cash salary per year of service, with the limit of six months' remuneration.

In case of termination by mutual agreement between the parties or due to resignation by the Chairman-Chief Executive Officer without serious breach of contract by the Company, they will not be entitled to any compensation.

The period of notice envisaged in the contract is 15 calendar days for both the Company and the Chairman-Chief Executive Officer. In the event of failure to comply with this period, there is an obligation of compensation in a sum equivalent to the remuneration corresponding to the period of notice not observed.

With regard to the system of exclusivity, the Chairman-Chief Executive Officer is subject to application of Article 13 of Law 3/2015, of 30 March, regulating the exercise of senior posts in Spanish Government organisations, according to which he must have the authorisation of the Council of Ministers to be the Chairman of the companies referred to in Article 13.2 of that Law.

There are no exclusivity, post-contractual non-compete and tenure or loyalty agreements.

The legal system applicable to the contract with the Managing Director of Airports (Executive Director since 29 October 2020) is the eighth additional provision of Royal Decree-Law 3/2012, of 10 February, on urgent measures for the reform of the labour market, Royal Decree 451/2012, of 5 March, regulating the remuneration regime for

senior managers and executives in the public business sector and other entities, and other applicable legal provisions or regulations.

The duration of the Managing Director of Airports' (Executive Director) contract is open-ended and no financial compensation is provided for in the event of termination of the contractual relationship with the Company when such termination is the result of the Director's non-compliance with their obligations.

If the Company were to terminate the contract of the Managing Director of Airports (executive director) in the absence of any of the following causes: unfair conduct or conduct which seriously damages the Company's interests or implying non-compliance with their obligations, and when the contract is ended by the Director's unilateral decision as a consequence of serious contractual non-compliance by the Company of its obligations, the director, as he/she is an employee of a state public sector company with a reserved position, will not be entitled to any severance package whatsoever, except for that for failure to give advance notice.

In case of termination by mutual agreement between the parties or due to resignation by the Managing Director of Airports (executive director) without serious breach of contract by the Company, they will not be entitled to any compensation.

The notice period provided for in the contract is 15 calendar days for the Company and 3 months for the Director (executive director). In the event of failure to comply with this period, there is an obligation of compensation in a sum equivalent to the remuneration corresponding to the period of notice not observed.

With regard to the exclusivity regime, in the event that the Managing Director of Airports - executive director - wishes to carry out any of the exempted activities provided for in Article 19 of Law 53/1984, of 26 December, on Incompatibilities of personnel in the service of the Public Administrations, they must expressly declare this to the financial supervisor/shareholder and receive approval, in the form of a resolution of the Board of Directors of the Company, without prejudice to the need for authorisation from the Council of Ministers in the cases provided for in Article 8 of the aforementioned law.

There are no exclusivity, post-contractual non-compete and tenure or loyalty agreements.

- The nature and estimated amount of any other supplementary remuneration that will be accrued by directors in the current year in consideration for services rendered other than those inherent in their position.

Not applicable

- Other items of remuneration such as any deriving from the company's granting the director advances, loans or guarantees or any other remuneration.

Not applicable

- The nature and estimated amount of any other planned supplementary remuneration to be accrued by directors in the current year that is not included in the foregoing sections, whether paid by the company or by another group company.

Not applicable

A.2 Explain any significant change in the remuneration policy applicable in the current year resulting from:

- A new policy or an amendment to the policy already approved by the General Meeting.
- Significant changes in the specific determinations established by the board for the current year regarding the remuneration policy in force with respect to those applied in the previous year.
- Proposals that the Board of Directors has agreed to submit to the general shareholders' meeting to which this annual report will be submitted and for which it is proposed that they be applicable to the current year.

[There isn't one, based on the explanation given in point A.1](#)

A.3 Identify the direct link to the document containing the company's current remuneration policy, which must be available on the company's website.

[There isn't one, based on the explanation given in point A.1](#)

A.4 Explain, taking into account the data provided in Section B.4, how account has been taken of the voting of shareholders at the General Shareholders' Meeting to which the annual report on remuneration for the previous year was submitted on a consultative basis.

[There isn't one, based on the explanation given in point A.1](#)

B OVERALL SUMMARY OF HOW REMUNERATION POLICY WAS APPLIED DURING THE YEAR LAST ENDED

B.1 Explain the process followed to apply the remuneration policy and determine the individual remuneration contained in Section C of this report. This information will include the role played by the remuneration committee, the decisions taken by the Board of Directors and the identity and role of any external advisors whose services may have been used in the process of applying the remuneration policy in the year last ended.

[As explained in section A of this Report, as a State-owned corporation, Aena is subject to the regulatory framework applicable to the remuneration model for senior managers and executives in public sector companies and also to provisions for remuneration in the corresponding General State Budget Acts.](#)

For these purposes, the remuneration of the Directors, excluding expenses which may be reimbursed, is as follows:

- a) Non-executive Directors receive a per diem for attendance at the Board meetings, up to a maximum of 11,994 euros per year, in compliance with the regulations mentioned above which lay down that the annual sum for each Director may in no case exceed such annual limit.
- b) Aena Directors who also hold senior posts or are senior managers or executives in the public sector do not receive the per diem indicated in the section above as this amount related to the senior posts is deposited by Aena in the Public Treasury.
- c) In 2020, Mr. Maurici Lucena Betriu, Mr. Angel Luis Arias Serrano, Mr. Ignacio Díaz Bidart, Ms. Angélica Martínez Ortega, and Mr. Francisco Javier Martín Ramiro until 29 October 2020, when he stepped down from his duties as a Director of Aena, have been considered as occupying senior posts and therefore their allowances are paid into the Public Treasury.
- d) The Chairman-Chief Executive Officer, as described in section A of this Report, receives a fixed annual remuneration amounting to 111,709.56 euros (in 2019 values). He also receives a complementary remuneration, which includes an allowance for his position and a variable allowance, which cannot exceed the maximum percentage set for the group in which Aena is classified, which is Group 1, as indicated in section A1 above.
- e) The Managing Director of Airports (Executive Director), as explained in section A of this Report, has received a fixed remuneration which, since his appointment as executive director on 29 October 2020, amounts to 15,780.24 euros (in 2019 values). He also receives a complementary remuneration, which includes an allowance for his position and a variable allowance, which cannot exceed the maximum percentage set for the group in which Aena is classified, which is Group 1, as indicated in section A1 above.
- f) The salary review for 2020, set out in Royal Decree-Law 2/2020 of 21 January 2020, which consists of a 2% increase on the remuneration in force at 31 December 2019, is pending application.

B.2 Explain the different actions taken by the company in relation to the remuneration system and how they have contributed to reducing exposure to excessive risks and aligning it with the long-term objectives, values and interests of the company, including a reference to the measures adopted to ensure that the long-term results of the company have been taken into consideration in the remuneration accrued and that an appropriate balance has been attained between the fixed and variable components of the remuneration, the measures adopted in relation to those categories of personnel whose professional activities have a material effect on the company's risk profile and the measures in place to avoid any possible conflicts of interest.

Aena, as a State-owned company, is subject both to the regulatory framework applicable to the remuneration model for senior executives and managers in the public business sector, and to the provisions on remuneration in the corresponding General State Budget Acts, so there is no margin of discretion when it comes to setting specific actions regarding the remuneration of Directors.

B.3 Explain how the remuneration accruing and vested during the year complies with the provisions of the current remuneration policy.

Furthermore, report on the relationship between the remuneration obtained by the directors and the results or other performance measures of the company in the short and long term, explaining, if applicable, how variations in the company's performance have influenced changes in directors' remuneration, including any accrued remuneration payment of which has been deferred, and how such remuneration contributes to the short- and long-term results of the company.

--

There isn't one, based on the explanation given in point A.1.

B.4 Report on the result of the consultative vote at the General Shareholders' Meeting on remuneration in the previous year, indicating the number of votes against, if any:

	Number	% of total
Votes cast	127.767.501	100

	Number	% of votes cast
Votes against	1.632.329	1,278
Votes in favour	126.096.108	98,691
Abstentions	39.064	0,31

Remarks

B.5 Explain how the fixed components accrued and vested during the year by the directors in their capacity as such were determined and how they changed with respect to the previous year

--

Not applicable, based on the explanation given in point A.1.

B.6 Explain how the salaries accrued and vested by each of the executive directors over the past financial year for the performance of management duties were determined, and how they changed with respect to the previous year.

--

The only executive directors are the Chairman-Chief Executive Officer and the Managing Director of Airports (the latter since he was appointed as a director on 29 October 2020).

During the 2020 financial year, the position of Chairman-Chief Executive Officer has been held by Mr. Maurici Lucena Betriu. His remuneration accrued in this period has been:

Fixed remuneration:	Basic Remuneration:	111,709.56 euros
Supplementary remuneration:	Job allowance:	44,683.82 euros
	Variable allowance:	12,505.35 euros
Other items:	Life insurance premium:	81.84 euros
	Pension Plan:	889.96 euros

The only variation with respect to the previous year is the application of the 2.50% consolidated increase from July 2019, authorised by Royal Decree-Law 24/2018, of 21 December, approving urgent measures regarding remuneration in the public sector and by the Agreement of the Council of Ministers of 21 June 2019, as the 2020 salary review set out in Royal Decree-Law 2/2020, of 21 January 2020, approving urgent measures regarding remuneration in the public sector, is pending application.

The salary review for 2020, pending application, set out in Royal Decree-Law 2/2020 of 21 January 2020, consists of a 2% increase on the remuneration in force at 31 December 2019.

During 2020, the contributions for the financial years 2018 (according to the final paragraph of Article 18 Two of Law 6/2018, of 3 July, on the General State Budget for 2018) and 2019 (according to the final paragraph of Article 3 Two of Royal Decree-Law 24/2018, of 2 December, approving urgent measures regarding remuneration in the public sector) have also been made.

The contributions pending to be made, corresponding to 2020, consist of an additional increase of 0.30%, included in Royal Decree-Law 2/2020, of 21 January 2020, approving urgent measures in the area of remuneration in the public sector.

During the financial year 2020, the position of Managing Director of Airports (Executive Director since 29 October 2020) has been held by Mr. Francisco Javier Marín San Andrés and his remuneration accrued since his appointment as director has been as follows:

Fixed remuneration:	Basic Remuneration:	15,780.24 euros
Supplementary remuneration:	Job allowance:	3,748.55 euros
	Variable allowance:	4,490.95 euros
Other items:	Life insurance premium:	58.65 euros
	In-kind per vehicle and fuel:	651.70 euros

These salaries are pending the application of the 2020 salary review, set out in Royal Decree-Law 2/2020 of 21 January 2020, which approves urgent measures in the area of remuneration in the public sector.

The salary review for 2020, pending application, set out in Royal Decree-Law 2/2020 of 21 January 2020, consists of a 2% increase on the remuneration in force at 31 December 2019.

The contributions pending to be made, corresponding to 2020, consist of an additional increase of 0.30%, included in Royal Decree-Law 2/2020, of 21 January 2020, approving urgent measures in the area of remuneration in the public sector.

B.7 Explain the nature and the main characteristics of the variable components of the remuneration systems accrued and vested in the year last ended.

In particular:

- Identify each of the remuneration plans that determined the different types of variable remuneration accrued by each of the directors in the year last ended, including information on their scope, date of approval, date of implementation, any vesting conditions that apply, periods of accrual and validity, criteria used to evaluate performance and how this affected the establishment of the variable amount accrued, as well as the measurement criteria used and the time needed to be able to adequately measure all the conditions and criteria stipulated, explaining the criteria and factors applied in regard to the time required and the methods of verifying that the performance or any other kind of conditions linked to the accrual and vesting of each component of variable remuneration have effectively been met.

- In the case of share options and other financial instruments, the general characteristics of each plan must include information on the conditions both for acquiring unconditional ownership (vesting) of these options or financial instruments and for exercising them, including the exercise price and period.
- Each director that is a beneficiary of remunerations systems or plans that include variable remuneration, and his or her category (executive director, external proprietary director, external independent director or other external director).
- Information is to be provided on any periods for accrual, vesting or deferment of payment of vested amounts applied and/or the periods for retention/unavailability of shares or other financial instruments, if any.

Explain the short-term variable components of the remuneration systems

Article 7 of Royal Decree 451/2012, of 5 March, regulating the remuneration system for senior managers and executives in the public business sector and other entities, establishes the assignment by whoever exercises financial control or supervision, by the shareholder or, failing that, by the Ministry for the entities included in its scope of application, of the supplement for the post and the variable remuneration supplement for their senior managers and executives.

Only executive directors receive variable remuneration (due to their status as executives of the Company) and, taking into account the criteria contained in said article and the limits established by the Order of 12 April 2012 of the Ministry of Finance and Public Administrations approving the classification of Public Business Entities and other public law entities, in accordance with the aforementioned Royal Decree 451/2012, the Ministry of Public Works resolved to set the amount of the variable supplement of the Chairman-Chief Executive Officer, which amounts to 12,505.35 euros and of the Managing Director of Airports, which, from the date of his appointment as executive director, amounts to 4,490.95 euros. The application of the 2020 salary review, as set out in Royal Decree-Law 2/2020 of 21 January 2020, which approves urgent measures regarding remuneration in the public sector, is pending.

The salary review for 2020, pending application, set out in Royal Decree-Law 2/2020 of 21 January 2020, consists of a 2% increase on the remuneration in force at 31 December 2019.

The objectives set for the year 2020 for the receipt of variable remuneration have been included in section A1 of this Report, the degree of achievement of each of them in 2020 being as follows:

- i. COVID-19 operational expenditure reduction plan: Achieve the planned average monthly savings level with respect to the 2020 Operational Plan. It has been achieved by 102.91%, which weighted by 25%, gives a result of 28.64%.
- ii. COVID-19 Investment Reduction Plan: Achieve the reduction in terms of certification with respect to the 2020 Operational Plan. It has been achieved by 112.59%, which weighted by 25%, gives a result of 30%.
- iii. Availability of liquidity: Achieve sufficient level of funding. It has been achieved by 100%, which weighted by 15%, gives a result of 15%.
- iv. Financing: Comply with debt covenants or, in the event of default, obtain sufficient waivers to ensure business continuity. It has been achieved by 100%, which weighted by 15%, gives a result of 15%.

- v. Operational Recovery Plan Phase 1: Comply with the milestones established in the Operational Recovery Plan. It has been achieved by 100%, which weighted by 20%, gives a result of 20%.

The evaluation relates to the financial year 2020, from January 1 to December 31, however, it is necessary to remain at least four months (4) performing the position, in order to be evaluable.

As regards the methods for verifying that the performance conditions have been effectively satisfied to be able to say that the target has been met, the Economic-Financial Department has verified that the targets have been met in the following way:

- Quantitative targets, Target 1. Operating Expense Reduction Plan and Target 2. Investment Reduction Plan with the financial information available in the Company's systems.
- Target 3. Availability of Liquidity, financing was obtained (between March and May 2020).
- Target 4. Financing, to comply with debt covenants or, in the event of default, to obtain sufficient waivers to guarantee business continuity. Attached is a link to the relevant fact of the CNMV where the formal announcement is made.
 - Link to the pdf: <https://www.cnmv.es/Portal/verDoc.axd?t={1368c79a-b916-4f01-a1b3-d86bc38e6fbc}>
 - Link to the CNMV website (press release of 3/12/2020): <https://www.cnmv.es/Portal/Otra-Informacion-Relevante/Resultado-OIR.aspx?nif=A86212420>
- Target 5. Operational Recovery Plan Phase 1, has been broken down into four different milestones that summarise all the measures implemented in the aeronautical and commercial field.

The degree of achievement of the company's objectives (which constitute the Chairman-Chief Executive Officer's personal targets) was 108.64%, although, as explained above, the maximum overall attainment of the objectives set may not exceed 100% and, therefore, may not exceed the monetary amount established in the applicable regulations, where the annual variable remuneration is paid in full in cash.

The calculation of the amount of the variable remuneration will consider the degree of compliance and weighting of each of the targets and will apply the standards and internal procedures for evaluation of targets established by the Company for its executives. At the end of the year, the degree of achievement will be determined.

The amount to be received as variable supplement accrued during the financial year by the Executive Directors is paid in two parts: 80% of the amount due is paid in December of the financial year and the remaining 20% is paid in March of the following year once the final year-end data have been obtained.

Explain the long-term variable components of the remuneration systems

There are none

B.8 Indicate whether certain variable components have been reduced or clawed back when, in the former case, payment of non-vested amounts has been deferred or, in the latter case, they have vested and been paid, on the basis of data that have

subsequently been clearly shown to be inaccurate. Describe the amounts reduced or clawed back through the application of the "malus" (reduction) or clawback clauses, why they were implemented and the years to which they refer.

This situation has not occurred.

B.9 Explain the main characteristics of the long-term savings schemes where the amount or equivalent annual cost appears in the tables in Section C, including retirement and any other survivor benefit, whether financed in whole or in part by the company or through internal or external contributions, indicating the type of plan, whether it is a defined contribution or defined benefit plan, the contingencies covered, the conditions on which the economic rights vest in favour of the directors and their compatibility with any type of indemnification for early termination or cessation of the contractual relationship between the company and the director.

The Executive Directors are the only Directors taking part in the Joint Promotion Pension Plan for Entities in the Aena Group.

The Joint Promotion Pension Plan for Entities in the Aena Group was set up with an open-ended duration on 27 December 2001 and is a social insurance scheme which is private, voluntary and independent of the public social security system. The nature of its members means it is an employment scheme due to the stipulated defined contribution obligations.

This Plan covers the following contingencies:

- a) Retirement of the participant or participant on hold.
- b) Total permanent disability for the usual profession, absolute disability for any work and great disability of the participant or participant on hold. These situations may be considered so if recognised and declared by the National Institute of Social Security or competent body or, where appropriate, by the competent Jurisdictional Body.
- c) Death of the participant, participant on hold or beneficiary.

Being a participant in the Plan is compatible with other types of compensation for early termination or termination of the contractual relationship between the company and the Director.

The consolidated rights of the participant will include the part of the capitalisation fund that corresponds to him/her based on the contributions, as well as the benefits generated by the resources invested, taking care, as the case may be, of the losses, costs and expenses that may have occurred. In this sense, the contribution made by the company will be governed by what is indicated in the General State Budgets Act in force each year.

During 2020, the contributions for the financial years 2018 (according to the final paragraph of Article 18 Two of Law 6/2018, of 3 July, on the General State Budget for 2018) and 2019 (according to the final paragraph of Article 3 Two of Royal Decree-Law 24/2018, of 2 December, approving urgent measures regarding remuneration in the public sector) have been made for the Chairman-Chief Executive Officer. They amount to 889.96 euros.

The contributions made during 2020 for the Managing Director of Airports (executive director since 29 October 2020) relate to the financial years 2018 and 2019, before he was appointed as a Director.

The contributions pending to be made, corresponding to 2020, consist of an additional increase of 0.30%, included in Royal Decree-Law 2/2020, of 21 January 2020, approving urgent measures in the area of remuneration in the public sector.

B.10 Explain, where applicable, the indemnification or any other type of payment deriving from the early cessation, whether at the company's or the director's initiative, or from the termination of the contract in the terms provided therein, accrued and/or received by directors during the year last ended.

--

The only case in which this type of payment might be made would be in the event of termination of the Executive Directors' contract.

The duration of the Executive Directors' contracts is open-ended and no financial compensation is provided for in the event of termination of the contractual relationship with the Company when such termination is the result of the Directors' non-compliance with their obligations.

In the case of the Chairman-Chief Executive Officer's contract being terminated by the Company in the absence of any of the following causes: unfair conduct or conduct seriously prejudicial to the interests of the Company or meaning non-compliance with their obligations, and when the contract is ended by the Director's unilateral decision as a consequence of serious contractual non-compliance with its obligations by the Company, the Chairman-Chief Executive Officer, as he is not a national, regional or local public sector official or employee, will have the right to a severance package equivalent to seven days' of his annual cash salary per year of service, with the limit of six months' remuneration.

In case of termination by mutual agreement between the parties or due to resignation by the Chairman-Chief Executive Officer without serious breach of contract by the Company, they will not be entitled to any compensation.

The period of notice envisaged in the contract is 15 calendar days for both the Company and the Chairman-Chief Executive Officer. In the event of failure to comply with this period, there is an obligation of compensation in a sum equivalent to the remuneration corresponding to the period of notice not observed.

With regard to the system of exclusivity, the Chairman-Chief Executive Officer is subject to application of Article 13 of Law 3/2015, of 30 March, regulating the exercise of senior posts in Spanish Government organisations, according to which he must have the authorisation of the Council of Ministers to be the Chairman of the companies referred to in Article 13.2 of that Law.

There are no exclusivity, post-contractual non-compete and tenure or loyalty agreements.

The duration of the Managing Director of Airports' (Executive Director) contract is open-ended and no financial compensation is provided for in the event of termination of the contractual relationship with the Company when such termination is the result of the Director's non-compliance with their obligations.

If the Company were to terminate the contract of the Managing Director of Airports (executive director) in the absence of any of the following causes: unfair conduct or conduct which seriously damages the Company's interests or implying non-compliance with their obligations, and when the contract is ended by the Director's unilateral decision as a consequence of serious contractual non-compliance by the Company of its obligations, the director, as he/she is an employee of a state public sector company with a reserved position, will not be entitled to any severance package whatsoever, except for that for failure to give advance notice.

In case of termination by mutual agreement between the parties or due to resignation by the Managing Director of Airports (executive director) without serious breach of contract by the Company, they will not be entitled to any compensation.

The notice period provided for in the contract is 15 calendar days for the Company and 3 months for the Director (executive director). In the event of failure to comply with this period, there is an obligation of compensation in a sum equivalent to the remuneration corresponding to the period of notice not observed.

With regard to the exclusivity regime, in the event that the Managing Director of Airports - executive director - wishes to carry out any of the exempted activities provided for in Article 19 of Law 53/1984, of 26 December, on Incompatibilities of personnel in the service of the Public Administrations, they must expressly declare this to the financial supervisor/shareholder and receive approval, in the form of a resolution of the Board of Directors of the Company, without prejudice to the need for authorisation from the Council of Ministers in the cases provided for in Article 8 of the aforementioned law.

There are no exclusivity, post-contractual non-compete and tenure or loyalty agreements.

- B.11 Indicate whether there have been any significant changes in the contracts of persons exercising senior management functions, such as executive directors, and, if so, explain them. In addition, explain the main conditions of the new contracts signed with executive directors during the year, unless these have already been explained in Section A.1.

There have been no changes in the contracts of the people who perform senior management roles as Executive Directors.

- B.12 Explain any supplementary remuneration accrued by directors in consideration of the provision of services other than those inherent in their position.

Not applicable.

- B.13 Explain any remuneration deriving from advances, loans or guarantees granted, indicating the interest rate, their key characteristics and any amounts returned, as well as the obligations assumed on their behalf by way of guarantee.

Not applicable.

- B.14 Itemise the remuneration in kind accrued by the directors during the year, briefly explaining the nature of the various salary components.

Executive Directors are the beneficiaries of the group life and accident insurance and health insurance policies that are taken out for all employees of the company, which do not, however, apply to the other Directors.

These policies are imputed as remuneration in kind. In the case of the Life and Accident Insurance Policy, the whole of the premium is considered as payment in kind and, in the case of the Health Insurance, the sum which exceeds 500 euros annually is considered as payment in kind, a sum which in 2020 has not been surpassed.

The Life and Accident Insurance premium accrued during 2020 by the holder who has held the position of Chairman-Chief Executive Officer, Mr. Maurici Lucena Betriu, amounts to 81.84 euros and the Life and Accident Insurance premium accrued, since his appointment as Executive Director on 29 October 2020, by the holder who has held the position of Managing Director of Airports, Mr. Francisco Javier Marín San Andrés, amounts to 58.65 euros.

The Managing Director of Airports, Mr. Francisco Javier Marín San Andrés, is also imputed remuneration in kind for the use of a company vehicle and fuel allowance which, for the period since his appointment as executive director, amounts to 651.70 euros.

- B.15 Explain the remuneration accrued by any director by virtue of payments made by the listed company to a third company in which the director provides services when these payments seek to remunerate the director's services to the company.

Not applicable

- B.16 Explain any item of remuneration other than the foregoing, whatever its nature or the group company paying it, especially when this is considered a related party transaction or its settlement distort the true and fair picture of the total remuneration accrued by the director.

Not applicable

D OTHER INFORMATION OF INTEREST

If there are any significant issues relating to directors' remuneration that it has not been possible to include in the foregoing sections of this report, but which it is necessary to include in order to provide more comprehensive and reasoned information on the remuneration structure and practices of the company with regard to its directors, list them briefly.

This annual remuneration report was approved by the Board of Directors of the company in its meeting of 23 february 2021.

Indicate whether any director voted against or abstained from approving this report.

Yes No
