

Summer Season 2022 Incentive

Condition

At the end of S22 (EOS ¹) the airline must have maintained the minimum programmed seats threshold in relation to HBD¹ on each geographical zone.

Refund

Will be the result of multiplying the number of commercial departure passengers that exceed the load factor thresholds by its average passenger charge in each zone and the percentage of the refund established in each zone.

From 1 of April to 31 of October 2022

Must be requested before the end of October 2022 by sending an email to facturacion@aena.es

Note: The airline must carry at least 1,500 departure commercial passengers from April to October 2022.

1. EOS. End of Season (Program at 31st October 2022). HBD. Historic Baseline Date (Program at 31st January 2022)
 2. Long haul corresponds to routes longer than 4,000 km and short haul < 4,000 km.

Parameters for the calculation of the refund per zone

	Zone 1 and 2 Short Haul ² & Latin America	Zone 3 Long Haul ² (Excl. Latin America)
Minimum seat threshold in relation to HBD ¹	85%	50%
Load Factor threshold	80%	70%
Passenger charge refund	50%	100%
