Quality, environment & awards

Ibiza

The airport is focused on having the best image possible. **Ibiza's airport** has implemented an **Integrated Quality and Environmental Management System**, certified according to **ISO 9001 and ISO 14001** standards.

The airport got `**The Voice of the customer**´ recognition by **ACI World** in 2021.

Ibiza Airport has obtained the **Airport Carbon Accreditation Level 3 (Optimization)** in 2024, being the fifth Aena network airport with that recognition, due to the airport's actions to reduce its CO2 emissions, incorporating efforts from third parties: handling companies, restaurants, rent-a-car companies etc.

2010 Island Council Award for their work on the tourism development.

2009 Public Administration Excellence Award.

Ibiza Airport was **certified by the Spanish Aviation Agency (AESA), according to EU 139/2014 regulation.**

The airport has **Level 3 Optimization certification** under **ACI Europe's Airport Carbon Accreditation Programme** for its reduced carbon footprint.

As part of the environmental initiatives that Ibiza Airport is implementing, it has installed photovoltaic modules and has more than 90,000 m2 of landscaped areas as well as two waste recycling points inside the building heavily used by Ibiza locals. Ibiza airport parking is the biggest electric vehicle's charging point on Ibiza island, with a total of 48 stations.

Yearly **quality surveys** for airlines and passengers are carried out in order to monitor their perception of the airport services.

Our commitment with sustainability

Ibiza

AENA and the Sustainable Development Goals

We guarantee sustainable consumption modalities

We generate a sustainable economic growth

We promote diversity and social inclusion

We strengthen partnerships to achieve sustainable goals

We protect the environment and fight against climate change
